

Procedure on how to send SMS in your local language (Kannada, Tamil, Telugu, Hindi, Gujarathi, Marathi, Bengali, Punjabi etc) using our SMSHOUSE.IN portal.

1. Login to the **smshouse.in** portal , click on 'Push SMS' menu.

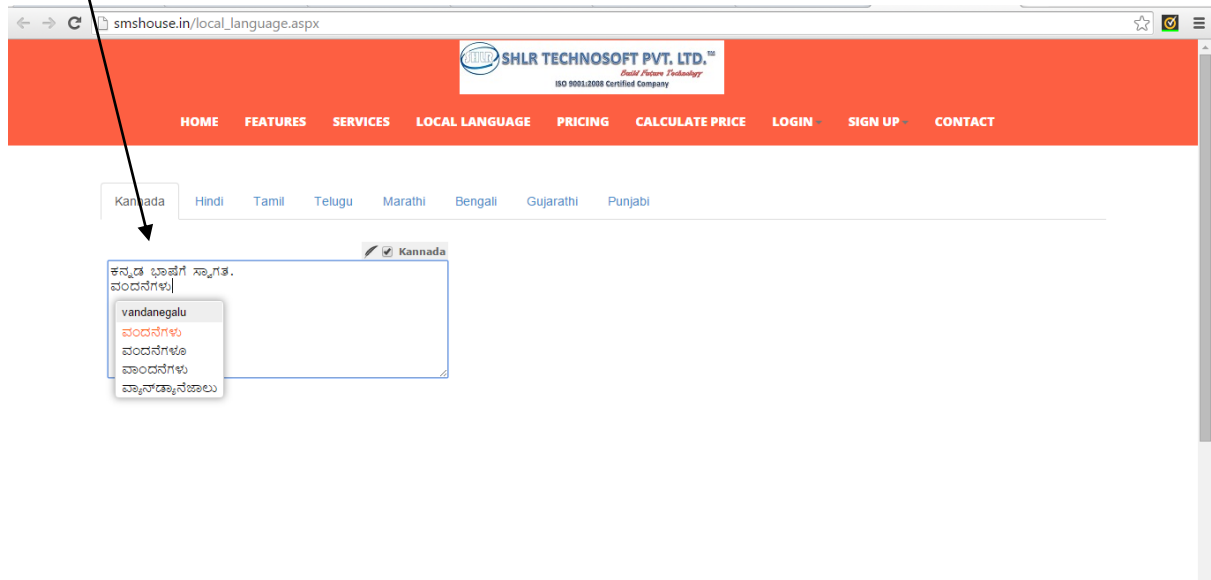

2. Choose **Sender ID**, next choose Message Type as '**Unicode**' as shown below.

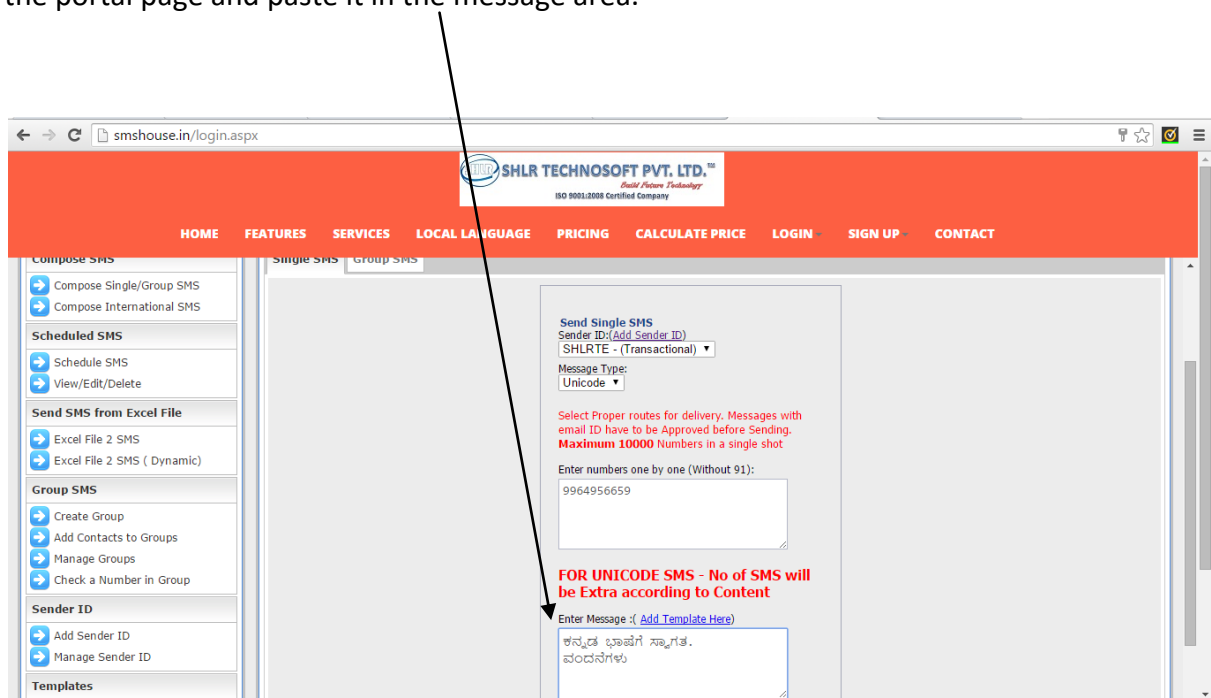

3. Enter the phone numbers one by one (without 91) in the space provided.

4. In order to enter the message in the local language, visit our language translator page http://smshouse.in/local_language.aspx and choose the appropriate language.

5. Type the message in English in the specified area which will ask for auto suggestion in the local language you have chosen for appropriate words.

6. Once the message is translated into your local language, copy the message and go back to the portal page and paste it in the message area.

7. Next, click on 'Send Instant Message' button to send SMS to the specified numbers in your local language.

(Note: Before clicking on Send Instant Message button, please verify whether you have selected **Message Type** as 'Unicode')

Enter numbers one by one (Without 91):
9964956659
